BRANDON ANTHONY GUTIERREZ

512-554-5818 ⋄ bagutierrez0@outlook.com ⋄ linkedin.com/in/bagutierrez0 ⋄ github.com/bagutierrez0

SKILLS

Languages	Python, Bash, Go, Node
Version Control	Git, GitHub
Infrastructure as Code	Terraform
Containerization	Docker
Operating Systems	Linux/Unix
Networking & Protocols	HTTP, HTTPS, DNS, SSL/TLS, SSH
Databases	
Tools	Vim, NGINX, UFW, Ansible
Cloud Providers	AWS

PROJECTS

Containerized Web Application with Automated Infrastructure & CI/CD (web app)

Fully automated deployment pipeline implementing infrastructure as code, configuration management, containerization, and CI/CD. Provisions AWS resources with Terraform, hardens servers with Ansible, containerizes the application with Docker, and automates deployment with GitHub Actions

Automated Minecraft Server Infrastructure With Monitoring & Observability Automated infrastructure and observability platform for a containerized game server on AWS. Implemented infrastructure as code with Terraform, configuration management with Ansible, containerized deployment with Docker, and comprehensive monitoring using Prometheus/Grafana with centralized log management and automated alerting

CERTIFICATIONS

AWS Certified Solutions Architect (Associate)	Issued: Month Year — Expires: Month Year
CompTIA Security+	Issued: Month Year — Expires: Month Year

EDUCATION

Bachelors of Electrical Engineering, Texas State University — Expected Year
Minor in Applied Mathematics
